

**What is
VIUS?**

You have been selected to participate in the **2021 Vehicle Inventory and Use Survey**, conducted in partnership with the Bureau of Transportation Statistics (BTS), Federal Highway Administration (FHWA), and the Department of Energy (DOE) to better understand the characteristics and use of vehicles on our nation's roads. The data will be used to guide investments in our nation's infrastructure, vehicle technologies and parts; as well as to evaluate truck safety needs, emissions estimates, and conservation practices. We are proud to be bringing back this survey after almost two decades to provide the needed timely data for the nation. For more information on the VIUS, please visit www.bts.gov/VIUS.

**What to
Expect**

The 2021 Vehicle Inventory and Use Survey will ask you to report information about the characteristics and usage of your registered vehicle(s) in 2021. The survey includes questions such as vehicle type, safety features, miles driven, fuel and maintenance, weight, personal and/or commercial usage, type of business, and what was transported.

**Vehicle:
Vehicle Identification Number (VIN):**

**Data
Protection**

Any data you provide will be kept strictly confidential and can only be used to produce aggregate statistics. Your response is required by law, and the data you provide cannot be used against you in legal proceedings.

**What to
Do Now**

No action is needed at this time. A request for response will be mailed in the next couple weeks providing more detailed information on how to respond. If you would like more information about this survey, please visit www.census.gov/viushelp or contact us at 1-844-395-4085, Monday through Friday, 8:00 a.m. to 5:00 p.m. Eastern time.

Thank you in advance for your time and participation.

The American Trucking Association (ATA), American Transportation Research Institute (ATRI), National Private Truck Council (NPTC), and Owner-Operator Independent Drivers Association Foundation (OOIDA) all proudly support the VIUS.
